JAGRUTI GOTHWAL

PRODUCT DESIGNER (MOBILE & WEB)

behance.net/jagrutigothwal gothwaljagruti@gmail.com | 8529379794 Ahmedabad, India

---

PROFILE

Product Designer with 3+ years of experience designing SaaS-based mobile and web applications. Skilled in simplifying complex workflows into intuitive, scalable experiences. Strong in Figma, responsive design, and frontend fundamentals (HTML, CSS, JavaScript), enabling seamless collaboration with engineering teams.

EXPERIENCE

UI/UX Designer
Delta Infosoft Pvt. Ltd. | Dec 2022 – Present

- Led end-to-end UX design for SaaS mobile apps, web platforms, and dashboards from wireframes to high-fidelity prototypes.
- Simplified complex business workflows into structured, user-friendly interfaces.
- Designed reusable UI components to maintain consistency across products.
- Partnered with developers to ensure pixel-perfect, responsive implementation.
- Conducted requirement discussions with stakeholders to align design with business goals.
- Performed visual QA and usability refinements before release.
- Applied Material Design and Apple HIG principles in mobile and web interfaces.

KEY PROJECT HIGHLIGHTS

My Time – Workforce Management SaaS Dashboard

- Redesigned task and attendance workflows to simplify multi-step actions and improve clarity for end users.
- Created interactive prototypes to validate user flows before development handoff.
- Standardized dashboard UI patterns to improve visual hierarchy and consistency across modules.

Attendance App – Mobile Workforce Tracking Application

- Designed a mobile-first attendance tracking app focused on simplifying daily check-ins, shift management, and leave tracking.
- Structured user flows to reduce friction in clock-in/clock-out interactions and status updates.
- Built high-fidelity mobile prototypes in Figma aligned with Material Design and Apple Human Interface Guidelines.
- Ensured responsive adaptability across devices and optimized interaction clarity for field-based users.
- Collaborated with developers to ensure smooth implementation and consistent UI behavior across mobile platforms.

Pick & Pack – Operations Management App & Web Dashboard

- Designed end-to-end user experience for a pick-and-pack logistics workflow, supporting warehouse staff and admin users across mobile and web platforms.
- Simplified complex inventory and order-processing flows into step-based guided interactions to reduce operational errors.
- Created reusable UI components to maintain consistency between mobile app and web dashboard experiences.
- Structured data-heavy interfaces into digestible visual formats to improve scanning speed and task completion efficiency.
- Conducted stakeholder discovery sessions to align operational requirements with scalable design solutions.

SKILLS :

Product Design:
User Research, Wireframing, Prototyping, Interaction Design, Responsive Design, Usability Testing, Information Architecture
Design Systems:
Reusable Components, Layout Patterns, Design Consistency, UI Standardization
Tools:
Figma, FigJam, Bootstrap, GitHub
Frontend Knowledge:
HTML, CSS, JavaScript, Next.js
Other:
Accessibility Awareness, Visual Design, Dashboard UX, SaaS Product Design

---

EDUCATION :

Master of Computer Applications
Parul University, Vadodara – 2023
Bachelor of Computer Science
Kadi Sarva Vishvavidyalaya – 2021
